Forecast for Sunday 27 Nov 2022

Weather: Mainly dry overnight but with large amounts of high cloud. Then a dry morning with increasing amounts of sunshine as high cloud edges away. Becoming cloudier in the afternoon with showers breaking out, these possibly heavy and thundery with risk of hail. Mainly dry by the evening with clear spells, but there could be a few showers later.

Chance of cloud-free hill tops above 700m: 90% falling to 40% for a time in afternoon.

Low cloud and visibility: Mostly good visibility, but only a few kilometres in developing showers. Little or no cloud near the tops in the morning, but sometimes very poor at height in the afternoon with broken cloud above 700m, though occasionally extensive near showers above 500m.

Meteorologist's View

Some chill affect at height with strong winds and showers

Forecast for Monday 28 Nov 2022

Weather: Clear periods overnight with a touch of frost in some of the glens, but heavy and perhaps thundery showers likely later in the night. Risk of heavy and thundery showers at first, but clearing away in the morning, then mostly dry with bright or sunny spells, but there could be a scattering of showers in the afternoon, with risk of sleet on the summits. Dry in the evening with long clear periods and a frost developing.

Maximum wind: South or southwest 30-35 gust 45mph at first but turning West n morning and easing 15mph in morning and turning northwest in afternoon.

Chance of cloud-free hill tops above 700m: 70%, but likely closer to 30% early in the day and in afternoon for a time.

Low cloud and visibility: Mainly good visibility out of cloud, but only a few kilometres, perhaps lower in showers. Scattered to broken cloud above 700 or 800m, but periods of cloud down to 600m, perhaps 450m in showers.

Temperature: **Valleys:** Zero to 2 C at first, but plus 4 C by morning, then rising to 9 C
At 700m: Plus 2 or 3 C
Freezing level: Above the summits.
